

## Sailing Programs

I-LYA works hand-in-hand with US Sailing, PHRF and other class associations for the continued development of rules and to provide education and training to members.

From April through October, I-LYA member clubs run a continuous schedule of top notch regattas. I-LYA works to provide coordination between the regattas held by member clubs.

I-LYA is US SAILING'S Regional Sailing Authority and Appeals Body.

One of the highlights of the summer is the Annual Regatta held at Put-in-Bay on South Bass Island. Hundreds of sailors participate each year in this long-running event.

## Junior Programs

I-LYA Juniors coordinates and communicates sail racing and training opportunities for our area youth. Each year, over 150 sailors

participate at the I-LYA Junior Regatta and in our summer Traveler Series.

The Junior Powerboat Program, founded in 2006, teaches general boating knowledge, chart plotting, navigation, boat handling, and compass work.

The Inter-Lake Yachtsmen's Fund provides scholarships to the top finishers of both Jr. Bay Week and Jr. Powerboat competitions.

## Powerboat Programs

The annual Powerboat Regatta brings together boaters from many different clubs to socialize...

...and to compete in everything from predicted log and docking contests to miniature golf and cardboard boat races.
